*EAE Machinery was founded in 1996 as a proud member of EAE Group and is the only company in EAE Group which focused on machine production.*

*We offer the most comprehensive product line experience focusing to research and development.*

# Our Product Range

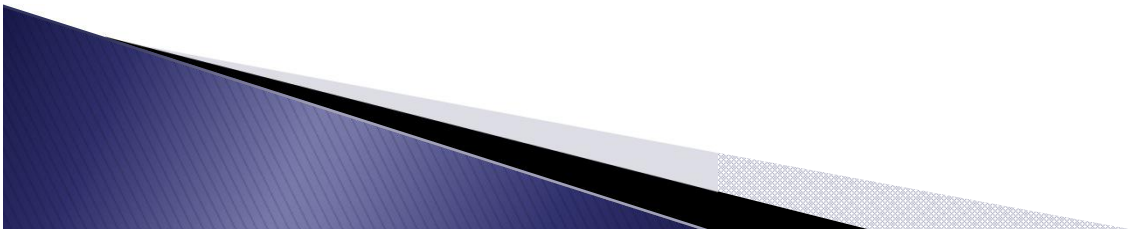

## *Coiled Sheet Metal Processing Lines*

- New compact Decoiler-Straightener-Feeder for Presses*
- Motorised and non-motorised decoilers*
- Strip straighteners*
- Servo controlled roll feeders*
- Recoilers*
- Roll straightener-feeders*
- Cut-to-length lines*
- Roll forming machines*
- Continuous and flexible production lines*
- Slitting and blanking lines*
- Coil processing lines*

- 
- Busbar and Cable Trays,*
  - Lighting Fixtures for Indoor and Facade application*
  - Electrical Cabinet*

*-Specified units are indispensable when it is needed to fully automatic lockseaming, multi blanking and perforating lines.*

*Apart from standart models, we are able to add custom design special equipment and offer full technical evaluation of sheet metal production lines.*

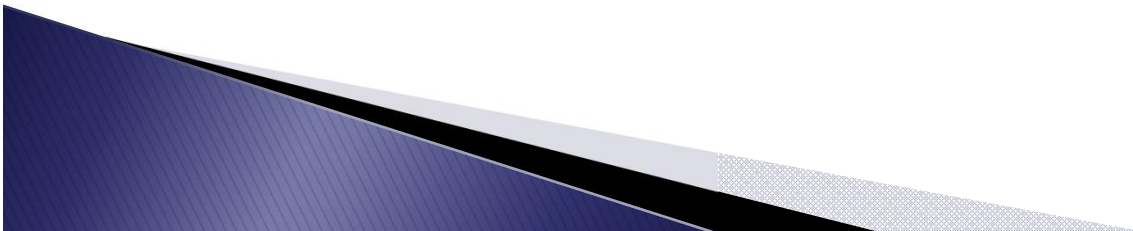

# EAE GROUP

*FROM PAST TO PRESENT*

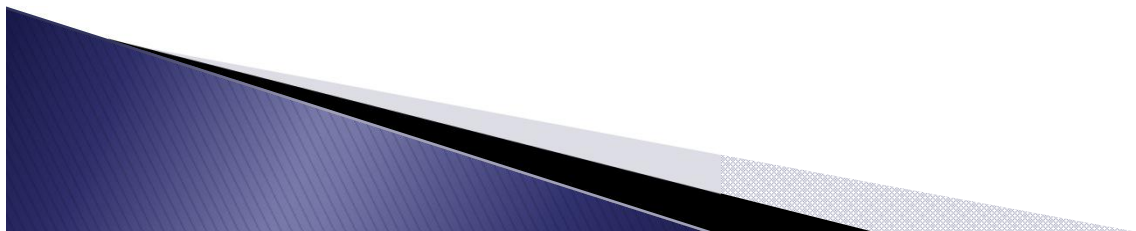

*EAE Group started its journey in the electricity industry in the when EAE Electric A.Ş. was established in 1973.*

*Growing at a rapid and steady pace since it's establishment, EAE Group incorporated EAE Electrotechnic A.Ş. in 1995 and EAE Machinery A.Ş. in 1996 and EAE Technology in 2009 and increased its quantity and range of production.*

*The companies within the Group were established with 100% national capital. The products are developed by the R&D departments within the companies.*

*The Group performs its activities in accordance with ISO 9001 Quality Management Standard and ISO 14001 Environmental Standard.*

# EAE GROUP

*EAE ELECTRICS*

*EAE LIGHTING COMPANY*

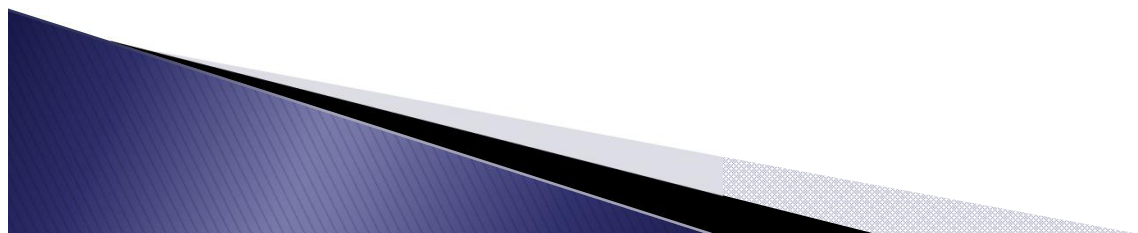

*EAE ELECTROTECHNICS*

*EAE MACHINERY*

*EAE TECHNOLOGY*

*EAE RUSSIA*

*EAE ITALY*

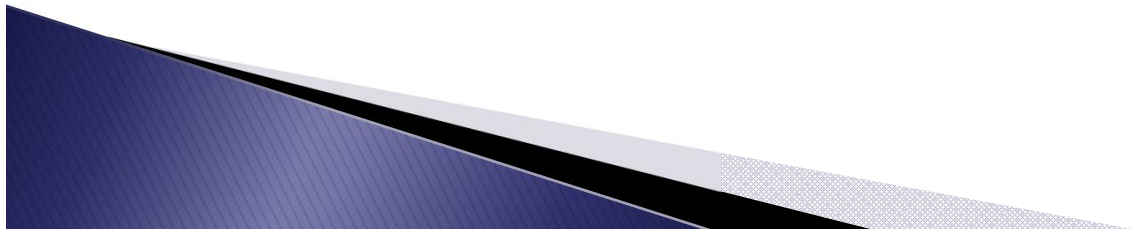

# CERN AND EAE MACHINERY

*EAE and MFK received gold award from CMS  
(Compact Muon Solenoid) for their excellent work in HF mechanics.*

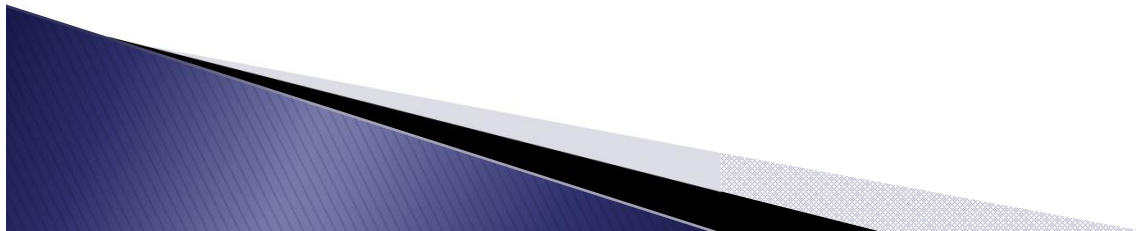

*Later they were awarded grease pads project*

*Through these two projects most of the funds paid to CMS returned  
to Turkey*

# AWARD

*EAE Machinery has been awarded because of excellent work and R&D development to Compact Muon solenoid project. This is called Large Hadron collider detector. And sub detectors.*

# 2003

# AWARDED R&D, SERVICE and EQUIPMENT SUPPLIERS

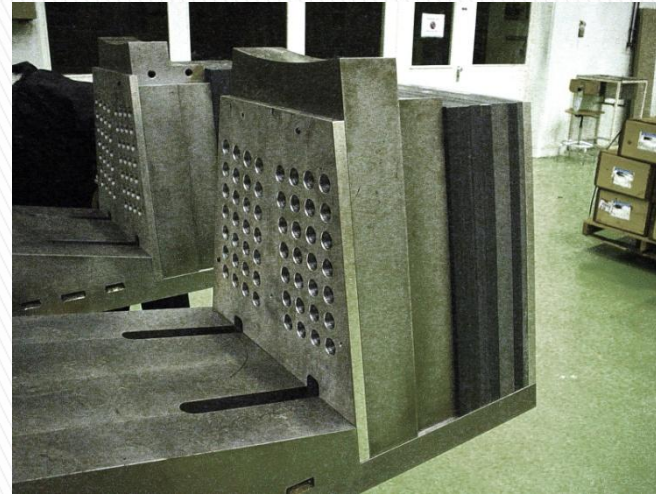

# GOLD AWARD FOR CMS

# STRONG BACK COMPONENTS

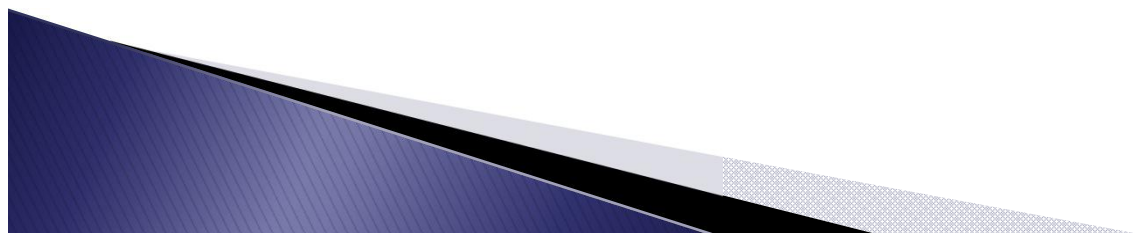

# EAE MACHINERY AND EU

*CECIMO is the European Machine Tool Manufacturer Association which covers 15 national associations together with Turkey and MIB.*

*Even though Turkey is not the official member of EU, We as TURKISH Machinery Manufacturer Association/Ankara are the member of CECIMO.*

*EAE Machinery CEO Mustafa Selçuk Baydar is one of the board members of CECIMO as representative of small countries.*

[www.cecimo.eu](http://www.cecimo.eu)

# CEO

*EAE Machinery CEO Mustafa Selçuk Baydar was born in 1960. Graduated from Istanbul Technical University as a mechanical engineer. He got his M.S. Degree from Technical University of Istanbul and worked at TUBITAK Marmara Scientific and Industrial Research Institute, Electronic Research Department for four years. After he worked in iron steel industry and since 1996 he is the CEO and partner of EAE Machinery*
