 - b. Facilitate the implementation of joint programmes and projects;
- 1.2. The Joint Committee meetings may be arranged by mutual agreement when the need for detailed discussion arises. However, the Joint Committee may also operate by correspondence.

- 2.2. Project proposals prepared in English in the prescribed format (Annex 1) should be submitted for evaluation and approval simultaneously to TUBITAK and CSIR. Proposals will be independently evaluated and approved by each of the two Parties, following their own rules and regulations, and only those proposals which are approved by both Parties will be supported.

- 2.3. The execution period of a joint research project should not exceed two years. The total duration of visits in one direction of a specific project should not be more than two months a year, with a total quota of six months a year for all the joint research projects supported under this Implementation Programme.
- 2.4. Each scientific visit has to be reported by the Turkish scientists to TUBITAK and by the Indian scientists to CSIR one month in advance. The application must include a brief description of the work to be performed during the planned visit.
- 2.5. Within a month after completion of a scientific visit, a progress report outlining the work performed during the visit will be submitted to TUBITAK and CSIR. The following visit will not be permitted, unless the progress report for the preceding visit has been evaluated and approved.
- 2.6. Within two months after completion of the execution period, a final report, presenting the work carried out and the results obtained, will be prepared in English jointly by the two research teams and submitted to TUBITAK and CSIR for evaluation and approval.
- 2.7. Besides the financial support towards the exchange of project researchers mentioned above, the Parties may provide additional research funds to their respective project teams whenever they consider it appropriate. It is desirable but not essential to fund the two sides equally.
