TÜBİTAK-JSPS CALL FOR PROPOSALS 2021

Joint international research projects will be funded within the framework of the bilateral agreement signed between The Scientific and Technological Research Council of Turkey (TÜBİTAK) and Japan Society for Promotion of Science (JSPS) on 4 March 2014.

The applicants who wish to propose joint projects within the framework of TÜBİTAK - JSPS Cooperation Program should find the Japanese/Turkish project partner by themselves. TÜBİTAK and JSPS do not interfere in matching the collaborating partners.

Turkish and Japanese partners shall prepare a joint scientific project. Teams from each country must designate a national scientific coordinator. Projects should be submitted respective funding agencies by each national scientific coordinator. There is no late submission deadline for both Turkish and Japanese teams. Applicants in Turkey are required to submit their application electronically via <http://uidb-pbs.tubitak.gov.tr> for the 2544 coded call. The whole process has to be completed by using electronic signature. Japanese project partners are expected to apply to JSPS (please check the application rules of the JSPS: <https://www.jsps.go.jp/english/e-bilat/call.html>). Unilateral applications will not be taken into evaluation.

TÜBİTAK and JSPS will evaluate the project proposals according to their scientific evaluation criteria. Both organizations will exchange their scientific evaluation results, and only the overlapping projects that are found acceptable for both parties will be funded. Two (2) projects will be funded under this call.

Only the research projects will be funded under this call. The projects will be implemented through the exchange of researcher and knowledge. Based on the respective bilateral agreement between TÜBİTAK and JSPS, each party will cover the costs of their own national team. While submitting the project proposal form, the costs which are requested in the scope of the project must be stated in detail and justified. In the case of any exchange of researcher to be made within the scope of the projects, the sending party meets all related costs connected with travel, lodging and allowances according to their own regulations and allowances. The provisions of per diem Law No. 6245 will be applied for the Turkish team during their scientific visits from Turkey to Japan. TÜBİTAK will fund Turkish side under the financial principles of TÜBİTAK 1071 Program (please check the application rules for Turkish side, https://www.tubitak.gov.tr/sites/default/files/3125/1071_arastirma_projeleri_surec_dokumani.pdf).
